LOWER PANEL remote control for abdominal positions positions.

"STEEL WORKS" A one piece solid steel platform.

XG05	
Base length (mm \ in)	850 33.5
Base width (mm \ in)	420 16.5
Total height (mm \ in)	1400 55
Base height (mm \ in)	165 6.5
Total weight (kg \ lbs)	72 160
Max load (kg \ lbs)	150 330

XG05

ACCELERATION

"REACHING FOR BETTER"

The DKN **Xg05**: work-out becomes accessible for everyone. A perfect blend of a full steel construction, innovative technology and quality design: The DKN **Xg05** is set for **WBV** training at home or for rehab with physiotherapists.

XG05

Low-energy consumption **TOUCH - SENSOR** monitoring your personal graphical charts: 7 frequency settings, 5 modules integrated in your personal coach.

Design and **ERGONOMICS**: adapted for all features of an integrated **WBV** training.

TECHNOLOGY: silent high performance motors, variable and gradual start-up vibration control, up to 3.2 KN.

XG10	
Base length (mm \ in)	850 33.5
Base width (mm \ in)	420 16.5
Total height (mm \ in)	1400 55
Base height (mm \ in)	165 6.5
Total weight (kg \ lbs)	72 160
Max load (kg \ lbs)	150 330

XG10 ACCELERATION

“REACHING FOR BETTER”

The next step in WBV training. The Xg10 features a new touch-sensor control panel, high acceleration motors and the three-dimensional base: an innovation in **WBV** targeting fitness, rehab and wellness for home, gyms, clubs and spa's.
